Thank you for choosing our office for your orthodontic needs. It is important to be aware of the following office policies before starting treatment.

Appointment Policy

Appointments are normally scheduled at 4-6 week intervals. In order to provide quality orthodontic care, it is necessary to schedule some appointments during school/ work hours.

Insurance

As a special service to you, we assist in filing of insurance claims so that you might receive the full benefit available from your insurance coverage. When our office confirms orthodontic benefits, the insurance company is very clear that the benefit information we are given is an estimate and no guarantee of payment. In our orthodontic financial agreement, the insurance allowance we take assignment for is an "estimate". If for any reason the total insurance assignment is not paid as expected, it becomes the responsibility of the patient.

Treatment Cooperation Policy

Successful treatment is dependent on patient cooperation in elastic wear, proper oral hygiene, care of appliances(broken), keeping appointments as scheduled, and eliminating foods that break or distort the appliance. Our office reserves the right to discontinue treatment at any time and for any reason, including lack of cooperation or failure to adhere to the financial agreement.

Dental Care

During orthodontic treatment, you are expected to maintain your regular check-ups and cleanings with your family dentist. This will help to prevent cavities, decalcification, and discontinuation of orthodontic treatment.
